Work Experience

- **Web Content Specialist – American Bar Association** | Chicago, IL | 2022 - present
 - Built numerous web pages on the Adobe Experience Manager CMS platform.
 - Worked with a team to migrate thousands of web pages to newer templates.
 - Saved time with big-scale migration projects by building JavaScript functions.
 - Implemented UX/UI, accessibility, and SEO best standards.
 - Used Adobe Photoshop and Lightroom Classic to add custom images to sites.
- **Web Content Specialist – American Hospital Association** | Chicago, IL | 2022
 - Worked with the Director of Web Strategies to build new sites on Drupal CMS.
 - Created responsive web pages using JavaScript ES6, CSS3, and HTML5.
 - Worked on projects with a team and delivered exceptional results on time.
 - Assisted other co-workers by learning new skills and completing jobs of other hats.

Education

- **Full-Stack Web Development Certification Course** | University of California, Irvine | 2021
 - 6 month hands-on web development program, specialized in MERN stack, team driven Agile methodologies, and custom made team driven project building.
 - Fast-paced learning environment that improves development and promotes efficient learning capabilities. Certifies HTML5, CSS3, JavaScript ES6, React, and SQL/NoSQL.
- **Bachelor's Degree of Health Administration** | University of Hawaii | 2020
 - Studied health sciences, physical sciences, and social sciences alongside business school courses of management, finance, statistics, and computer systems.
 - Working in local restaurants and pursuing full-time studies allowed immersion in diverse populations of unique cultures, which offered a valuable and diverse learning experience.
